The Green Team provides you the opportunity to contribute to a beautiful, clean, and sustainable community. Our team holds regularly scheduled "Green and Clean" events in which volunteers spend a couple of hours picking up around the neighborhood. Gloves, tools, bags, and cleaning plans are provided. Events usually feature an after party gathering to celebrate camaraderie and review opportunities for improvement. The Green Team also provides educational resources to share insights on sustainability and environmental responsibility. If interested in learning more or volunteering for The Green Team, contact us and mention you wish to volunteer for the Green Team.
